

PON SANKARA NAVEEN R K

QA Automation Engineer with 2.9+ years of experience in the healthcare domain, aspiring to excel in the world of automation through innovative ideas and technical skills. I possess experience in test planning, automation framework design and implementation, writing and executing manual and automated test scripts, raising and tracking defects until closure.

PROJECTS AND EXPERIENCE

➤ COGNIZANT TECHNOLOGY SOLUTIONS | DEC 2020 - PRESENT

Automation Engineer – HC CSR Application

- Created, maintained and executed **automation test scripts (Selenium + Java)** for web application in regular basis ensuring that the application remained defect free.
- Leveraging my expertise in QA automation, I seamlessly navigate the scrum team landscape, taking responsibility for **system, regression, end-to-end, WCAG, and API testing both manually and via automation.**
- Developed **integrated test scripts** to carryout entire End To End testing by combining presentation layer test scripts with backend testing tools.
- **Garnered recognition and awarded with cheer points** for exceptional performance, innovative automation scripts, and insightful ideas to implement end-to-end testing of IVR functionalities.
- Exhibited a high level of efficacy in orchestrating seamless collaboration with the Development team, Product Owner, Business Analyst, Scrum Master, backend teams, Infrastructure specialists, and Database team, all with the singular goal of meticulously ensuring the precise fulfillment of requirements as envisioned.
- In collaboration with senior management, I crafted a **SharePoint site** to showcase our QA achievements and metrics to the client, demonstrating our commitment to excellence and our ability to meet their needs.

Test Analyst – Cloud Migration Project

- Ensured effective migration of on-perm '**Provider and Payer**' **web application** into **Azure environment**. Carried out Functional validation and Integration testing on Azure environment.
- Bestowed with the **Rising Star - Silver award**, lauded for exceptional performance and innovative automation tools that streamlined routine tasks, enhancing efficiency and productivity.
- Learned and get certified in **Azure Fundamentals - AZ900** which helped in raising and solving issues specific to cloud environment like WAF, FTP stability, Timestamp, Special characters security issues in prior notice inorder to maintain constant ontime signoff.
- Created **VBA automated tool** to do data setup and also automated the day-to-day frequent activities like logging into VPN, VM, to application and screenshot functionalities.
- Created **Selenium VBA** test scripts to carryout Smoke test on web application whenever a patch update is carried out in Azure environment, which saved a lot of time and effort.

➤ INTERNSHIP

TRACTORS AND FARM EQUIPMENTS (TAFE), MADURAI

I acquired and adeptly applied the principles of **VSME and LEAN** methodologies, subsequently formulating an innovative solution aimed at augmenting productivity and efficiency through the strategic elimination of Non-Value Added (NVA) activities. Our exemplary efforts in this regard garnered special recognition and appreciation.

➤ COLLEGE LEVEL PROJECT

BOREWELL RESCUE SYSTEM: Fabricated a device To Save a Child That Is Stuck in a Deep Bore Well. Mechanism used in this device is Inverted Umbrella Mechanism. Also, won 1st prize in department level Project contest.
